December 7, 1973

MEMORANDUM FOR: DDI

SUBJECT: Information Presentation

1. At DCI's discussion with PFIAB yesterday Dr. Baker brought up during a discussion of the prospective National Intelligence Daily the subject of interactions among format, typography and substance as a way of enhancing reader efficiency. Later Mr. Colby said he wished DDI to become familiar with this.

25X1

2. I talked with Dr. Baker again this morning and he proposes that a visit be paid to BTL. When individuals have been designated I will make arrangements. I would like a member of the IC staff to participate as it appears that utility can be wider than CIA alone.
